# Centering my motivation

1. ## Why are you taking this program?

   I'm taking this program to better my skills for myself my father and my future business I don't want to just be a developer but also an entrepreneur.

2. ## When you close your eyes and imagine it, how would you describe what your life will be like after you graduate from boot-camp?

   When I close my eyes and imagine my ideas brought to life at the end of my program I imagine creating something that people can use. I would like to have a working app in the app store by next year. A working app could give me the income to pay back my loan. Pay my medical bills and help my father get the medical attention he needs.
